

SMART with FlowCon Energy FIT System

- **State-of-the-art** pressure independent balancing and temperature control (PITCV)
- **Cost savings** due to **optimized energy consumption**, **improved efficiency** and **ΔT control**
- **Simple monitoring** via Bluetooth® or analog to BMS via BACnet
- Communicates to FlowCon App (iOS or Android)
- **All in one system** including PICV, Intelligent Interface and sensor kit

**Your Environment
- Our Commitment**

FlowCon Energy FIT's **SMART CONTROL**

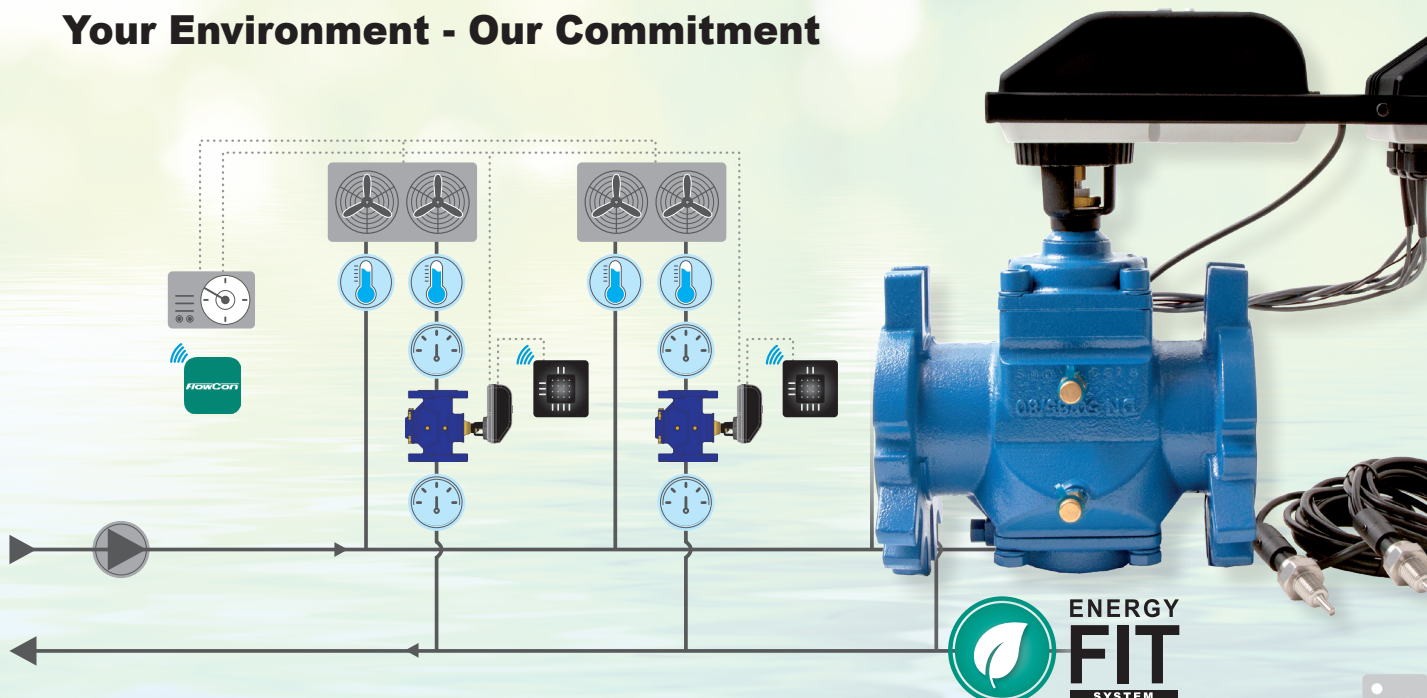

- Energy Optimization in respect of Comfort is *SMART CONTROL*
- ΔT Control combined with Flow Regulation is *SMART CONTROL*

With the newest FlowCon FIT software update it is possible to achieve a combination of ΔT Control AND Comfort Control in your HVAC system when selecting **SMART CONTROL**. This new feature is included as an integrated option. It will provide optimal room temperature control at lowest possible energy consumption by optimizing ΔT target between supply and return water.

These new features will be included in the update:

- Smart Control
- Media ΔT Target deadband
- Room temperature (read from BMS)
- Target room temperature
- Target room temperature deadband
